

**SKLÁRNY
MORAVIA**

DESIGN

Sklárny Moravia is a Czech producer of premium packaging glass. We produce bottles of the highest quality in customer design, in small series from 10,000 pieces. We handle bottles from miniatures (20 ml) to large volumes (up to 2,500 ml) with a maximum width of 160 mm and a maximum height of 375 mm.

COLOUR

We produce bottles, containers and apothecary jars in several different colours. In addition to traditional colours such as flint, extra flint and amber, we also offer luxurious black and violet. Glass containers of black glass is especially desirable for premium products and limited editions.

spirit and liquor bottles

wine bottles

beer and beverage bottles

containers and jars for food industry

flacons and jars for the cosmetic industry

apothecary jars
(reagent, powder, dropper and burette bottles)

SERVICES

Our offer includes a wide range of services - we provide new design development, technical drawings, 3D models and custom packaging according to customer requirements. All production moulds are safely stored and maintained at our premises, so they are always available for further production. We work closely with glass decorators and closure manufacturers. We benefit from cooperation for the best project synergy.

In addition to custom manufacturing, we can provide several standard bottles from our range. In such case, it is not necessary to invest in custom set of moulds.

HISTORY

The history of the Sklářny Moravia in the Úsobrno valley dates back to 1827, when it was founded by the count family of Strachwitz. Already in the nineteenth century, glassworks employed more than 200 employees, mainly from the surrounding area.

At the turn of 1945 and 1946, there was an extensive reconstruction of technology, which brought the glassworks to high European standards. Already at this time, the glassworks focused on the production of powder and reagent bottles with ground stoppers and cosmetic bottles in flint and brown colors.

After the privatization in 1996, a purely Czech joint-stock company SKLÁŘNY MORAVIA, was established. Since 2012, we have been supplying bottles of first-class quality from new production lines with great emphasis on the award-winning bottle design.

For several decades, Sklářny Moravia has been focusing on the production of small batches of premium containers for producers of high-end spirits, wines and liqueurs. We offer unique shaped bottles in flint, extra flint, amber, black and purple colours. We also remain true to our roots, namely with the production of powder and reagent bottles with ground stoppers.

GLASS that WORKS
